<u>1:7 TURNS RATIO:</u>				
TR-145	BV 35833	200/10,000	stud	5.76
<u>1:10 TURNS RATIO:</u>				
TR- 45	BV 35601	200/20,000	stud	5.82
TR-145	BV 35600	200/20,000	stud	6.10
<u>1:15 TURNS RATIO:</u>				
TR-145	BV 35570	200/45,000	stud	7.40
TR-145	BV 37570	200/45,000	PC board	8.12

All 200 ohm and 500 ohm transformers may only be used as low-level microphone input transformers with a max. input level of about -6 dB. The BV 35590 unit may be used as a line input transformer when fed from 600 ohms or lower, and will then permit levels to +22 dBm.

BASE PRICE: This is the price charged in 1000 quantity. For lower quantities see price breaks listed on reverse side of this sheet.

PC BOARD SURCHARGES: Any of the above units which are listed as "stud" mounting types may be ordered for PC board mounting with the following additional BASE PRICE charges:

BV-37	+72¢	BV-36 7-pin plug-in version	+66¢
BV-38	+75¢		
BV-39	+81¢		

This is a selection of popular units presently on hand. BEYER has made more than 800 different transformer types and special orders can be accepted for quantities of 100 and up.
